Hack #6

MAY 1, 2015 / JOHERRERA / LEAVE A COMMENT / EDIT

Over the last couple weeks we have talked about multiplle different movements and often times those movements would turn into intense protests and riots. It is interesting to see how regardless of how much damage has been done previously because of riots and protests that people still turn to this in order to get their voices heard. We have recently seen this relevant in Baltimore, as it is has been posted all over the internet and news the Baltimore riots got so out of hand that the government had to make the decision to send the National guard in. Sadly some of these people believe that the only way to get their point across is to put an entire city in danger, burn down business, and put many lives in harms way. Sometimes things in history don't change even when the consequences are severe.
